PROJECTS

VIPAT - THE PLACEMENT CELL -
REACT.JS | NODE.JS | SPRING BOOT | HTML | CSS | JAVASCRIPT

-A prototype web app for vit chennai college placement cell to manage the placement related process for the students smoothly.

-It is a very efficient and fast web-app as it is developed using the latest technologies such as react.js,node.js and spring boot.

-It is made for reducing the hectic process of managing the placement process of more than 5000+ students of our college.
